LASER SURGERY REQUEST FORM

Advances in veterinary medicine and Laser Surgery now make Laser use in our surgical procedures available to our clients. We continually strive to provide the best possible care for your pet, and we feel that Laser Surgery is the best option. The main reasons for this are as follows:

- The *Laser* produces less post-operative pain for your pet, because the laser seals the nerve endings.
- The *Laser* produces little or no blood loss for your pet, because the laser seals small blood vessels.
- The *Laser* produces little or no swelling for your pet, because the laser seals the lymphatic vessels.

**Laser Surgery is an elective procedure for Canine OHE and Feline OHE.
If you elect to have Laser Surgery it will be at an additional cost.
Please ask for an estimate.**

I understand that Laser surgery is an option and I have been advised of the advantages this procedure will offer.

YES I want my pet to have Laser surgery
The estimate for today's procedure is _____

NO I do not want my pet to have Laser surgery
